

Scores for NAWGJ Practice Judging DVD

Level 7/8 and Level 9/10

- These scores are an accumulation of decisions from clinics all over the country and judges of all levels.
- Scores are meant to serve as GUIDELINES for the routines and cannot be considered official since they do not come from the WTC.
- If you find a routine that you really question, please contact Judy Dobransky ddobransky@aol.com with your concern and score and start value.
- Please note that the SV ranges are reflected in the listed scores.
- All event scores were calculated in regular speed film evaluation.
- The pdf files for scripting contain the SHORTHAND for routines and will not show the scores. This makes them usable for future practice if and when the rules change again.

FYI: All JO films used are taken from active competitors. Every coach has the right to ask that their athletes are not used in our films.

Collegiate athletes are all graduate or non-competing performers. Scores for Collegiate DVD's will NOT be posted.
