

Helping Hands Donation Form

The Helping Hands Program was established in July of 2014 with a donation of \$10,000 from National Judges' Cup as seed money. Since then, we have been able to help many of our states and judges. Contributions have come from over a dozen states. We have distributed funds to states in financial need for clinics, SJDs meeting travel, and National Symposium registrations.

Our continued help depends on those states who are financially able to make yearly donations to this worthwhile cause. Our Mission Statement says we are "to provide professional development for our members". Your donation is one way to accomplish that goal.

Complete this form to make your donation.
