

Never Assume is a **Level 6/7/8 Practice Judging** Project developed by our NAWGJ Librarian, Judy Dobransky and filmed by David Yellen. There are 8 clips for each event at each level.

Scoring was completed by a group of Rated Officials, just like YOU! We are printing the full range of scores, start value, and comments knowing full well that sometimes, the listed scores may appear to be too far apart. The highest and the lowest score submitted are included in an attempt to acknowledge that sometimes, judges see things differently, especially when it comes to evaluating the degree of cast or split. In all cases, when needed, we will conference, make sure our scores are in range, and do our best to evaluate the athlete as fairly as possible.

Level 8 Routines also have Composition deductions listed, including the 'Up to the Level' deductions as listed in the Code of Points, Appendix 15. As you will see, sometimes those aren't always easy to determine.

Please note: These are **NOT OFFICIAL SCORES**, but are meant to be treated as a guideline for evaluation. Feel free to contact Judy Dobransky with questions or concerns about any differences you may find or questions you may have. DDobransky@aol.com

**A Flash Drive with all of the routines is available for \$15 including postage.
Send Judy your order via Email and pay online via PayPal.**
