   - i. none
Answer Sheet

General
1. h. b. and d. Each judge deducts 0.3 from the SV and takes this deduction if the routine is terminated early. Assuming the flyaway double back tuck is the only restricted “C” performed, do not deduct 0.3 for no dismount.

2. a. The fall is 0.5 as all judges know. However, there is also a 0.3 deduction from the Start Value for not initiating the dismount, so technically this is a total of a 0.8 deduction and the largest. Yup, did we confuse you? Bends knees ^0.3, split ^0.2, Catching falling gymnast is 0.5, Height of salto dismount ^0.3, Opening ^0.3, Steps maximum of 0.4

3. d. Within 0.1 of all-around score to qualify to the next level, the coach can inquire on the lowest scoring event. Read the rest of the responses closely—the rest are incorrect. For example, inquiries should be LEGIBLE (not illegible).

4. d. 7.7 The two middle scores are 7.2 and 8.2 which are 1.0 apart and average to 7.7. The allowable range if the average is below 8 is 1.0, so this average is in range.

5. g. 9.8 She needs 4 A’s and 4 B’s but has a total of 6 elements. She is allowed one restricted C which can replace the missing B. Her C dance element is allowed and can replace a missing A. She is missing 2 “A’s” so deduct 0.2 from 10.0 to get 9.8 SV.

6. b. 0.55 ^0.3 squat, ^0.2 Incomplete turn, 0.05 flexed feet

7. g. a) and b) Judge MUST HEAR the coach cueing gymnast for the 0.2 deduction (read the questions carefully). Incorrect attire is 0.2 and starting before the signal is 0.5

8. j. 9.1 She is short one A -0.1, and short 1 B – 0.3. She also gets a 0.5 deduction for the restricted C and no value part credit AND a 0.5 deduction from her Start Value. Total of 0.9 deducted from 10.0 = 9.1

9. d. The judge must provide her/his own SV flashing unit. The rest of the answers are correct.

10. f. a) and c) Basically there are two choices. The coach and athlete get to know the score from the one judge and can either take that score or rest a bit and repeat the routine and is stuck with the score from the two judges. Don't laugh—this has happened more than once and even at high-level (state, regional, national) meets.

Vault

11. a. 9.0 Gymnast does not have to do a second vault

12. b. 9.0 Flexed feet ^0.1, Shoulder angle ^0.2, Underrotte salto vault flat 0.1, Step 0.1

13. h. 8.6 Pike (hip angle) ^0.3, LA turn too early ^0.5, Flexed feet ^0.1, Late completion of twist ^0.3, Large step 0.2. That adds up to 1.4. Take 10.0 SV – 1.4 = 8.6

14. d. Deduct 0.3 for hopping off both hands simultaneously. Note that this is a NEW deduction for this Code.

15. f. All are correct

16. c. Coach spots level 8 vaulter during section phase of salto vaults 1.0. No deduction for standing between board and table on Yurchenko vaults, ^0.3 dynamics, Too long in support non salto vault ^0.5, Height ^0.5, Fall against table 0.5

17. c. 0.8 Up to 0.3 direction, Incomplete turn 0.25-0.3 (use 0.3), Feet> hip width apart 0.1, Arm swings ^0.1

18. c. She is done and takes the score of the vault she completed. Remember—3 attempts for 1 vault!

19. b. 0.6. No deduction on Yurchenko for coach between the board and table. ^0.3 dynamics, ^0.2 legs apart on 1st flight phase, ^0.1 for failure to maintain neutral head position on 1st flight phase. No deduction for Level 7 athlete landing on her back.
20. **f. 1.8** Hip angle ^0.3, Excessive arch ^0.2, Angle of repulsion ^1.0, Fail to create rotation ^0.3

**Bars**

21. **e.** Note that a short cast handstand is now considered a different connection than a hit cast handstand prior to the same element and is considered a different connection. And only in Level 10 do we deduct compositionally for 2 squat-ons. And really, will a level 8 do a hop grip element with a turn? A little unlikely.

22. **c.** Amplitude of release and dynamics throughout are each Up to 0.2 deductions. Arm swings on landing ^0.1, Bent arms ^0.3, Hit bar is a flat 0.2

23. **e.** All are “B’s” except the Cast HS ½ turn (45° or less) on same side of bar is an “A.”

24. **c.** Each judge deducts 0.5 for the third attempt.

25. **e.** Only 1 restricted “C” element is allowed, so the flyaway double back in a dismount with another restricted C (the counter to HS) is not allowable. And only **backward** stalders etc. are allowable so the front stalder isn’t allowable (it would be a restricted element). Ok, we worded this one oddly—sorry not sorry, it made you look it up!

26. **b.** She fulfills all difficulty and special requirements, however her dismount is a restricted C and you deduct 0.5 from her SV for the restricted element.

27. **h.** 8.9 SV, No deduction Choice. She has 5A’s and 2 B’s in this routine, so is short 2 B’s (-0.6). She is also missing a Special Requirement of a 3/6/7 “B” clear circling skill (-0.5). So 10.0 – 0.6 – 0.5 = 8.9 SV. She has a “B” with the cast handstand into an “A” dismount, and per the composition chart, there is no deduction for level of dismount.

28. **e.** 0.6 ^ 0.1 for extension of glide kip, ^0.1 for hesitating on jump to HB, 0.3 for hitting the mat with her feet, 0.1 for landing too close to the bar on dismount.

29. **f.** a) and b) Clear hip amplitude ^0.4. Maximum for steps is 0.4. Squat ^0.3, Hit bar with feet 0.2, Extra swing 0.3

30. **g.** 9.0. She has full difficulty with 7 elements. The “B’s” are the cast HS and the clear hip circle. She fulfills special requirements of cast HS and ONE clear circling element. She is missing a second clear circling element and a SALTO dismount, so subtract 0.5 for each of those missing special requirements. Tricky, but a reminder to always count elements and check special requirements closely when you judge!

**Beam**

31. **c.** is correct, deduct 0.05 if only forward/sideward element is in the dismount. Deduction for more than ONE pivot turn is flat 0.1. Note that choreography in 2/3 directions incurs no deduction (a change). Rhythm & tempo throughout exercise is up to 0.2. Relaxed footwork on non-value parts throughout exercise is now ^0.3. And Body alignment/position/posture on non-value parts throughout is ^0.3

32. **d.** 3 Both turns and the back salto tucked are “C’s”. The aerial walkover mount and straddle jump 90° are “B’s” and the jump to roll is an “A”.

33. **h.** a. And e. Failure to remove mounting apparatus after mount is 0.3 CJ deduction. No deduction for warming up on mat before the routine starts, 3rd attempt at a mount is not a CJ deduction although it would be 0.5 for all judges, overtime is 0.1, coach standing on a chair (not a permissible surface) is 0.3 and coach standing next to beam throughout is 0.1

34. **f.** All are correct.

35. **d.** The acro series requirement must start and finish on the beam, so she loses 0.5 from SV for no acro series. She has enough difficulty and fulfills the other Special Requirements.
36. d. 3 The cartwheel mount from the springboard is an “A,” the body wave to 2 feet is an “A” and the free back shoulder roll is a “C.” The rest are “B’s.”
37. b. No. While she did connect 2 back walkovers, because she performed an isolated one prior to the fall, the 3rd back walkover performed does not receive VP. If it does not receive VP it cannot be counted for SR.
38. d. Every judge deducts 0.5 for the fall and the chief judge additionally deducts 0.4 (CJ deductions are 0.1 for coach next to beam throughout, 0.1 for overtime and 0.2 for warming up on the mat after a fall.)
39. c. . 0.1 Acro, 0 Dance, 0.05 Dismount
40. b. Only the 4th one fulfills all special requirements
   1st - mount cannot be included for an acro series. Is also missing 180° leap/jump
   2nd - the kick to horizontal between the cartwheel and round-off breaks the connection. Is also short “As”
   3rd – Does not have aerial or salto dismount, also the straddle jump½ is a restricted element and would incur a 0.50 deduction
   4th - This is a very common L7 routine

Floor

41. h. b. and c. are correct. For too many mats CJ deducts 0.3 from average score, Level 8 routine time is 1:30 but Level 7 routine time is 1:15. For obstructing view (after warning) the CJ deducts 0.2 from the gymnast’s AA score who obstructed the view, or from the team score of the team obstructing the view.
42. a. Failure to hold ending pose for one second is 0.05. Synchronization of music at end of routine 0.1, relaxed/incorrect footwork throughout ^0.3, turns not in relevé’ ^0.1, Leg separations ^0.2, Twists on acro ^0.2, Height on aerials ^0.2
43. d. 0.1 overtime + 0.3 for out of bounds 3 times + 0.5 for coach on the floor = 0.9. Not holding her ending pose is 0.05 deduction but is taken by all judges, not a chief judge deduction. Tricky—did we fool you?
44. d. 0.15 Gymnast has 2 tumbling passes, one with an indirect A + B, the other with direct B+ B. Per chart, this is 0.05 deduction. For dance she has 2 A’s and 1 B, per chart 0.1 deduction. She ends with a B salto so no deduction for the dismount.
45. a. Lack of “B” turn is 0.2, Arm position ^0.1 (lack of precision in dance VP), Not land with feet together on jump to 2 feet ^0.1, Not holding ending pose one second 0.05, Not in high relevé on a turn ^0.1, Synchronization of music with ending pose 0.1
46. a. These are all false
47. b. 2. A back layout step out does not land on 2 feet, front layout full is a restricted skill.
48. f. 0.95 Insufficient height of salto ^0.3, Dynamics ^0.2, Dance turn ^0.2, Legs not parallel to floor ^0.2, Flexed feet 0.05
49. g. b), d) and e) The side leap and pike jump (min 90° hip) with 180° turn to front lying support, are both B’s. The rest are C’s
50. i. None. Routine must have a minimum of 2 passes. Dance passage must have 2 different group 1 elements, directly or indirectly connected. Full turn requirement must be on foot only. If only I could apply deductions for Pirates music! L7 can perform unlimited “C” dance elements, and they all count as “Bs”
