Answer Sheet

General

- g. a. and c. Judge should NOT make comments to gymnast unless requested from coach or gymnast and chief judge informs the judging assistants. (of course, if chief judge delegates informing judging assistants to the acting judge, that is ok.)
- g. b. and c. No visible sports bra, and spaghetti straps need to be 7/8" or wider
- a. The fall is 0.5 as all judges know. However, there is also a 0.3 deduction from the Start Value, so technically this is a total of a 0.8 deduction and the largest. Yup, tried to confuse you—did it work? Catching falling gymnast is 0.5, Height of salto dismount ^0.3, Opening ^0.3, Steps maximum of 0.4, Bends knees ^0.3, split ^0.2
- c. Within 0.1 of all-around score to quality to next level, coach can inquire on lowest scoring event. Read the rest of the responses closely—the rest are incorrect.
- f. These scores are out of range! The two middle scores are 7.9 and 8.8 which are 0.9 apart and average to 8.35. The allowable range in the 8's is 0.7 pt, so the Chief Judge needs to call a conference.
- c. 9.2 She needs 3 A's, 4 B's and 1 C. We use one D to replace 1 B. We cannot use the 2nd restricted D for value part, so she is short 2 A's. And she loses 0.5 for the 2nd restricted element from the Start value. Calculation: $9.7 - 0.2 (A's) + 0.1 (D) + 0.1 (CV) - 0.5 (2^{nd} \text{ restricted element}) = 9.2$. Remember, Level 9 can only get 0.1 in DV!
- b. 0.55 ^0.3 squat, ^0.2 Incomplete turn, 0.05 flexed feet

Vault

- a. 8.2 Gymnast does not have to do a second vault
- b. 9.5 Flexed feet ^0.1, Shoulder angle ^0.2, Underrotate salto vault ^ 0.1 (8/1/23 update), Step 0.1
- h. 8.8 Pike (hip angle) ^0.3, LA turn too early ^0.3 (8/1/23 update), Flexed feet ^0.1, Late completion of twist ^0.3, Large step 0.2. That adds up to 1.2. Take 10.0 SV – 1.2 = 8.8
- d. Deduct 0.3 for hopping off both hands simultaneously. Note that this is a NEW deduction for this Code.
- f. All are correct
- d. 0.75 Legs crossed ^0.1, Staggered hands ^0.1, Insufficient extension ^0.25, Length ^0.3. Give yourself a bonus point if you knew the SV is 10.0 for this vault and final score thus 9.25.
- c. 0.8 Up to 0.3 direction, Incomplete turn 0.25-0.3 (use 0.3), Feet > hip width apart 0.1, Arm swings ^0.1

Bars

- e. These are new clarifications (I used synonyms when describing ideal height and position on the Pak). Note that a short cast handstand is now considered a different connection than a hit cast handstand prior to the same element and is considered a different connection. And this is on the confusing side!
- c. 2 Amplitude of release and dynamics throughout are each Up to 0.2 deductions. Arm swings on landing ^0.1, Bent arms ^0.3, Hit bar is a flat 0.2
- c. 2 The Pak and Hang ½ on HB to HS on LB are both "D's." The cast HS hop ½ is "C." The uprise to HS ½ turn is a "C." HS on HB, bail to flight over LB to hang is also a "C."
- a. No bonus and 0.1 for uncharacteristic element of crawling up to the bar after doing an element (kip).
- e. 4 The Pike sole circle 1/1 in HS phase is an "E," the Giant backward hop full turn is an "E" and the front giant ½ turn is a "C." The rest listed are "D's."
- C+C+C + 0.4 CV total (even though she cannot use all that CV in her Start Value) Remember for Level 9, if both C elements have turn or flight, she earns + 0.2 and that you can use the middle element (front giant ½ in this example) twice.
- c. C+C+C +0.2 CV total. For LEVEL 9 ONLY a direct connection of 2 DIFFERENT elements, one or both without turn or flight, gets +0.1 CV. So, the cast HS ½ to clear hip HS gets +0.1 and the clear hip to HS to dismount gets +0.1 (you can use the middle element twice.) Warning: For Level 10 there is a different answer to this!
- e. 0.6 0.1 for facing same direction throughout routine, ^0.1 for hesitating on jump to HB, 0.3 for hitting the mat with her feet, 0.1 for landing too close to the bar on dismount.
- f. a) and b) Clear hip amplitude ^0.4. Maximum for steps is 0.4. Squat ^0.3, Hit bar with feet 0.2, Extra swing 0.3
- a. 10.0. She has full difficulty and fulfills special requirements of 2 bar changes, one B or better flight element, a LA turn minimum of B, and B or better dismount. She gets + 0.2 CV for the cast HS ½ turn to bail (both C's with

flight or turn), She gets a 0.1 DV for the giant full, AND she earns + 0.2 CV for the Giant Full into the dismount as we call that a C+C, both elements with flight or turn. (Remember—the D is counted as C for CV.)

25. g. a. and c. are correct. Start fall time once gymnast is on her feet. Start judging again when gymnast does an element in the DP Code of Points. And the glide kip stop and crawl up is deducted 0.1 for uncharacteristic element and 0.1 for lack of continuity.
26. d. 1.2 Maximum of 0.5 for 2 extra swings following one element, ^0.3 for bent arms, 0.3 for horizontal cast, ^0.1 for direction on landing.

Beam

27. c. is correct, deduct 0.05 if only forward/sideward element is in the dismount. Deduction for more than ONE pivot turn is flat 0.1. Note that choreography in 2/3 directions incurs no deduction (a change). Rhythm & tempo throughout exercise is up to 0.2. Relaxed footwork on non-value parts throughout exercise is now ^0.3. And Body alignment/position/posture on non-value parts throughout is ^0.3
28. e. 4 The aerial round-off is an "E." , the split leap forward with 1/2 (180°) turn to alternate landing is a "C", the rest of skills listed are "D's."
29. h. a. And e. Failure to remove mounting apparatus after mount is 0.3 CJ deduction. No deduction for warming up on mat before the routine starts, 3rd attempt at a mount is not a CJ deduction although it would be 0.5 for all judges, overtime is 0.1, coach standing on a chair (not a permissible surface) is 0.3 and coach standing next to beam throughout is 0.1
30. g. All are correct.
31. e. D+C +0.2 CV bonus. (Note this is a change—the switch leg leap mount is now a "D" and an allowable skill for Level 9. However, count it as a C+C for Connective Bonus which is still + 0.2. However, no DV bonus is awarded because the mount is a dance element, not an acro element. Confused yet?) Note that we asked you the value, not whether DV bonus was awarded or not!
32. d. 3 The cartwheel mount from the springboard is an "A," the body wave to 2 feet is an "A" and the free back shoulder roll is a "C." The rest are "B's."
33. c. 2 The Round-off back handspring mount is a "D" as is the 1 ½ turn holding free leg in split. The 1 ½ turn in tuck stand is a "C." The others listed are "E's." Dang, at Level 9 we used to not have to know the D's and E's. Now it appears we do. Remember that the first acro D or E counts as + 0.1 DV for Level 9.
34. d. Every judge deducts 0.5 for the fall and the chief judge additionally deducts 0.4 (CJ deductions are 0.1 for coach next to beam throughout, 0.1 for overtime and 0.2 for warming up on the mat after a fall.)
35. e. . 1 Acro, .05 Dance, 0 dismount. For acro she has a series with a C in it and an additional B for the round-off. For dance she has a C and a B. For dismount, she does a B acro flight into a B dismount. (Note: You will unlikely be asked this kind of composition question on your written test, but we wanted you to be able to look up the answer and ponder it through to the proper conclusion just in case you are asked such a question.)
36. a. 0.75 More than 1 pivot turn 0.1, second direction of acro only in the dismount 0.05, Height of leap ^0.2, Footwork throughout on non-value parts ^0.3, Arm swings on landing for balance ^0.1
37. e. 9.9 The switch leg leap is a "D," but dance so not eligible for DV bonus at Level 9, BHS + Back Pike B+C + 0.1 CV, Aerial round-off "E," and the first acro D/E performed so earns + 0.1 DV. 1 ½ turn with leg held in split is "D" but dance, so not eligible for DV bonus at Level 9.
38. f. 5 All skills listed are "B's" except the stag-split leap which is an "A."

Floor

39. h. b. and c. are correct. Remember, for Level 9, count a "D" skill as a C. The front pike through to double twist is +0.1 for B+C indirect. The 1 ½ through to the double full is +0.2 for C+C indirect. The front through to double back is A+C so NO CV, the Front pike through to double back is B+C + 0.1 CV (not + 0.2)
40. a. Fail to hold ending pose for one second is 0.05. Synchronization of music at end of routine 0.1, relaxed/incorrect footwork throughout ^0.3, turns not in relevé' ^0.1, Leg separations ^0.2, Twists on acro ^0.2, Height on aerials ^0.2
41. d. 0.1 overtime + 0.3 for out of bounds 3 times + 0.5 for coach on the floor = 0.9. Not holding her ending pose is 0.05 deduction but is taken by all judges, not a chief judge deduction.
42. f. 0.25--0.1 all back saltos (aerials no longer count for direction) and 0.15 for up to level acro, total is 0.25

- 43. a. Lack of “B” turn is 0.2, Arm position ^0.1 (lack of precision in dance VP), Not land with feet together on jump to 2 feet ^0.1, Not holding ending pose one second 0.05, Not in high relevé on a turn ^0.1, Synchronization of music with ending pose 0.1
- 44. b. 9.8. While there is an allowable “D” in the routine, only *acro* “D’s” are eligible for +0.10 bonus. We know, this is a bit confusing and counterintuitive—expect controversy and messed up SVs on this!
- 45. a. No bonus. All allowable “D/E” elements count as “C”s for connective value. There is no connective bonus for A+C indirect. (It would count for +0.10 D/E bonus if it were the first acro D/E performed.)
- 46. f. 0.95 Insufficient height of salto ^0.3, Dynamics ^0.2, Dance turn ^0.2, Legs not parallel to floor ^0.2, Flexed feet 0.05
- 47. g. The Split jump 1/1 and the Sheep jump 1/1 are “C’s.” The rest of the leaps/jumps listed are “D’s.”
- 48. a. No deduction. She has 2 “C’s” and 1 “B.”
- 49. c. Partially true. Bonus can be earned with +0.30 of connective value, or +0.20 connective value and +0.10 of difficulty value for the first D acro element performed in an exercise
- 50. b. 9.9. If first “D/E” attempt results in a fall, or no VP credit awarded (incomplete or coach assists/spots), no Bonus is awarded. No additional allowable “D/E” elements performed later in exercise will be considered for Bonus. She does get +0.20 for the B+C direct connection.

BONUS Question

- 51. a. 0 RO, FF-B. layout 1/1 is NOT on the Level chart vault for Level 9. The judges should not have scored it. Remember, if either of the 2 vaults performed are NOT allowed (restricted vaults) the VAULT EVENT is VOID.

Congratulations! You made it through the Evil Level 9 Test. May you be calm and confident you prepare for your actual test. You’ve got this!
